Warner Bros. created a whole new Bat-phenomenon when they launched "Batman: The Animated Series" in September 1992. Riding the wave of the popularity of the 1989 Michael Keaton big-screen movie, the animated series gave us a Batman who was dark, brooding and strong, always remembering the pain that created him. This was a Batman we could truly believe in. This was a Gotham City that was always night. And this was a Rogues Gallery of villains who found new life on the small screen: Besides colorful mainstays like Joker and Penguin, there were demented dames like Poison Ivy, springing from moderate

obscurity in the comics realm, and Harley Quinn, crafted just for this series, then crossing over to the comics realm.

All in all, "Batman: The Animated Series" has had a huge, fabulous impact in the Bat-world, and this Kindle report examines that, with a magazine-length feature story on the show, full episode synopses and cast list. With its 2011 update, the report also includes photos, which appear in color where available.

From the same place you'll find print reference guides to classic TV shows like "Dallas," "Dynasty" and "The Dukes of Hazzard," the BRBTV Reports are not designed to be "books." They're shorter, snappier reads -- and oh-so conveniently electronic -- to celebrate the great TV shows you love!

## The New Batman Adventures: Unmasking Gotham's Darkest Secrets
