This is a photography book; it does not explain or attempt to teach you about photography, in Arizona or anywhere else. One of the greatest pleasures about photography is experimenting to see if the image you capture resembles the image you had in your mind when you took it. This book is small; it is intended to be small. It is an attempt to bring the cost of photography books down to as low as they can go without sacrificing digital quality of the images within. This is the forty second volume in a series, length or number unknown at the moment. However, when the series becomes sufficiently voluminous, they will be combined into a larger, and unfortunately more expensive, volume. This volume contains about 40 images. Future volumes may contain a few more or a few less depending upon final digital size. I sincerely hope you enjoy the images within.
