Glad You're Not Me is an intentionally non-linear, plotless narrative that reflects the chaotic structure of Jonathan Harnisch's mind. As such, there is no clear storyline to display here. Rather, the following literary snapshots serve as a portrait of Harnisch in his quest to refute another author's portrayal of him with his own raw, turbulent prose. Or perhaps his life, his ambitions, and his struggles are only a joke. An author with schizophrenia, a self-proclaimed "Mentally Ill Artist". Many names tangled within one body: Jonathan, Ben, Georgie, and perhaps others yet to surface. A loveless childhood governed by parents who knew not what to do with their troubled child. Perversion and pornography, twisted fantasies of women both real and constructed. A fervent pursuit of authenticity, of the written word, of truth in all its naked inelegance. Cravings for violence, for sex, for depravity and degradation. Insomnia. Hallucinations. Voices. Madness and arrogance, rage and eerie calm. Memories of past women, current women, imagined women. An unconventional marriage. Rejection of those who try to tell him he is not a "mentally ill artist," but merely an artist with mental illness. Fuck 'em if they can't take a joke. And so the question stands, dear reader: Will you take the joke?
