2. The Sneezing Speed Phenomenon

Here's a fun fact: did you know that a sneeze travels at a speed of over 100 miles per hour? It's true! So next time you are about to unleash a mighty achoo, hold on tight and prepare for the sneeze of a lifetime!

3. The Magical Animal Kingdom

Brace yourself for this mind-bending revelation: did you know that there is an animal capable of shooting glowing blue clouds from its behind? That's right! The psychedelic sea slug, also known as *Janolus fuscus*, is a true artist when it comes to expressing itself.

4. The Talking Plants

Have you ever wondered if plants can communicate? Well, here's a bluffed fact for you: some plants are rumored to communicate through a secret language of vibrations that humans are unable to understand. Next time you pass by a garden, don't be surprised if you catch a whisper from the flowerbeds.

5. The Dancing Bears

Prepare to be amazed by the dancing talent of bears! Bluff alert: a secret group of bears known as the Swingin' Bruins has mastered the art of swing dancing. These groovy bears have become regulars on the dance floor and have even won a few dance competitions!

There you have it! A light-hearted collection of 100 facts and bluffs, designed to entertain and bring a smile to your face. From gigantic pumpkins to sneezing phenomenons, talking plants, and dancing bears, these tidbits are guaranteed to fill your day with laughter and curiosity. Share these facts with friends and family and watch as their eyes widen with disbelief and amusement. Cheers to the fascinating world we live in!

If you're looking for a very formal 'True Or False' book written in an informative style similar to that found in an encyclopedia, then this probably isn't the book for you. Many of the facts and bluffs found in this book cover silly or trivial subjects. One or two serious general knowledge facts may have slipped past the quality

control department, but on the whole I've tried to keep things light-hearted first, and educational second.

.....

A few words from the author:

One of the things that surprises me about modern society is how even allegedly intelligent people can sometimes be fooled and taken in by tricks, deceptions and outright bluffs. The invention of the internet has created more opportunities to fool people and this potential gullibility of society places a big responsibility on any bluffers to ensure they only use the power of bluffery for fun purposes.

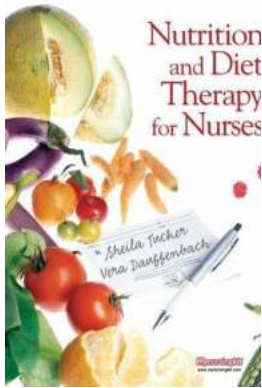

Bluffery should never be used to manipulate people, or to promote anger or bad feeling. It should only be used for having a bit of daft fun, so when I was writing this 'True Or False' book I tried to keep that in mind.

Each section has been researched thoroughly, and on a couple of occasions where opinions differ I've tried to mention both points of view. It's not a test though, so don't worry if you get a few wrong! It's not an exam. It's all just intended as a bit of light-hearted daftness.
