ARRL Technician Class Amateur Ham Radio License Exam Study Guide:

This edition details the ARRL Technician Class License Test Question Pool that applies between July 1 2018 and June 30 2022.

I prepared this guide for my personal use while studying for the ARRL Technician Class license exam. The guide helped me learn the material quickly and easily. By reading this material, and taking the practice exams available at the ARRL

website, I was able to prepare for an official Technician Class license exam session and, pass the test with a 100% score on my very first try. You can do it too!

This book is a compilation of the entire question pool used for the ARRL Technician Class amateur radio license examination. The test is administered in a multiple choice format. 35 of the 424 questions and answers shown in this guide will be selected for the test. The question pool is released in the public domain so that everyone may study for the test. These questions are reproduced and published in numerous study resources. The questions are most often presented with both the correct choice of answer as well as all the incorrect choices. The incorrect choices are included in the test to serve as a distraction.

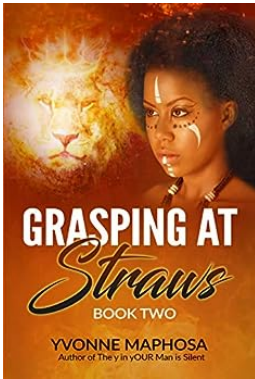

This study guide presents the correct answer for each and every question, and all the distractions are eliminated. Why waste time looking at 1200 wrong answers when learning the right answers is the goal?

There are many study guides available for your use. Some guides are easier to read than others. This particular guide has been prepared to seem especially comfortable and convenient to read. The value that this book offers is that the freely available information is presented here in a compact, handy, and easy to read format.

The information in this book is all that you need to pass the exam. The ARRL Technician Class Amateur Ham Radio License Exam Study Guide is also an excellent study aid which can compliment the comprehensive manuals offered by ARRL and many others.

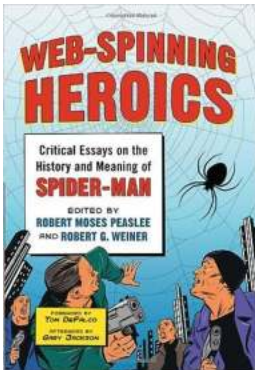

Get this book and join the thousands of amateur radio operators already exploring the airwaves.
