

# Proceedings Of The 20th CIRP Design Conference: Ecole Centrale De Nantes, Nantes

The CIRP Design Conference is a prestigious event that brings together experts, researchers, and industry professionals from across the globe to discuss the latest advancements and challenges in the field of design. This year, the conference is being held at the renowned Ecole Centrale De Nantes in the beautiful city of Nantes, France. The proceedings of this 20th edition promise to be as exciting and informative as ever.

## What to Expect

The conference offers a diverse range of presentations, workshops, and panel discussions covering various aspects of design. Attendees can expect to gain insights into cutting-edge research, industry trends, and innovative techniques that are shaping the future of design.

With a focus on topics such as design theory, design for manufacturing, human-centered design, and sustainable design, the conference fosters a multidisciplinary approach towards addressing the challenges faced by designers in the modern world.

## Global Product Development: Proceedings of the 20th CIRP Design Conference, Ecole Centrale de Nantes, Nantes, France, 19th-21st April 2010

## Keynote Speakers

One of the highlights of the conference is the lineup of esteemed keynote speakers who are renowned experts in their respective fields. These speakers will share their experiences, expertise, and visions for the future of design, inspiring attendees and providing valuable insights.

### 1. Prof. John Smith

Prof. John Smith is a world-renowned industrial designer and professor of design at a leading university. With over three decades of experience, he has played a pivotal role in shaping the design industry. His keynote speech is expected to focus on the integration of technology and design in the era of digital transformation.

## **2. Dr. Sarah Johnson**

Dr. Sarah Johnson is an influential figure in the field of sustainable design. Her pioneering work in creating environmentally-friendly products and systems has earned her international recognition. Her keynote speech will shed light on the importance of sustainable design practices and their impact on the environment and society.

### **Paper Presentations**

The conference also features paper presentations, where researchers and practitioners can showcase their innovative work. These presentations allow participants to delve deeper into specific areas of design and gain valuable feedback from experts in the field.

### **Workshops and Interactive Sessions**

In addition to presentations, the conference offers a range of workshops and interactive sessions that provide hands-on learning experiences. These sessions allow attendees to collaborate with peers, engage in discussions, and enhance their practical design skills.

## **Networking Opportunities**

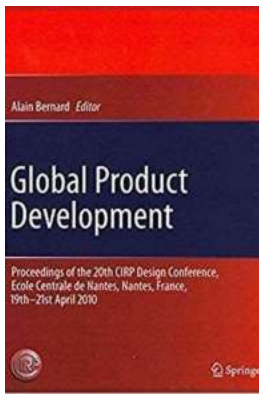

The conference provides ample networking opportunities for participants to connect with like-minded individuals, industry professionals, and potential collaborators. Networking events, receptions, and informal gatherings create a supportive environment for building meaningful relationships and exchanging ideas.

## **Why Attend?**

Attending the CIRP Design Conference can prove highly beneficial for professionals and researchers alike. It offers a platform to stay updated with the latest trends, learn from industry experts, expand professional networks, and gain recognition in the design community.

Furthermore, Ecole Centrale De Nantes, located in the vibrant city of Nantes, provides the perfect backdrop for this conference. Its rich history, cultural diversity, and world-class facilities make it an ideal venue for intellectual exchange and collaboration.

The Proceedings of the 20th CIRP Design Conference at Ecole Centrale De Nantes, Nantes, promise to deliver an exceptional experience for design enthusiasts. With its impressive lineup of keynote speakers, interactive sessions, and networking opportunities, this conference is a must-attend for anyone passionate about design and its future.

This book of proceedings is the synthesis of all the papers, including keynotes presented during the 20th CIRP Design conference. The book is structured with respect to several topics, in fact the main topics that serve at structuring the program. For each of them, high quality papers are provided. The main topic of the conference was Global Product Development. This includes technical, organizational, informational, theoretical, environmental, performance evaluation, knowledge management, and collaborative aspects. Special sessions were related to innovation, in particular extraction of knowledge from patents.
