The revised and improved edition of the Tarot and the Path of Initiation. This book marks the author's first steps into tarot, Thelema, and the Western Magickal Tradition. It is a book by a beginner for other beginners, founded on the idea that someone who has just learnt the material is more able to explain it in simple terms than a master who is overly familiar with the complex landscape. May it contribute to your own understanding of Aleister Crowley's Thoth deck and of Thelema.
