Writing this book has been one the greatest accomplishments of my life. This book is about responsibility, adventure, and life lessons. It leaves my grandchildren and others with a lesson in responsibility, but also has them to question themselves on what responsibility is, and why it's important to follow the rules of being a responsible person. This book also challenges others to see that everything you do does not have to be tragic, but that there are always

consequences to your actions. For those who like wonder and adventure, do not let it take over. Just remember to follow the safest path to your sense of wonder and adventure, and always listen to your parents.
