To understand what drives the rift that divides our populace between liberal and conservative, social psychologist Jonathan Haidt has spent twenty-five years examining the moral foundations that undergird and inform two differing world views: the political left and right place different values of importance on order, care, fairness, loyalty, authority, and liberty.

From one of our keenest dissectors of moral systems, *Why Do They Vote That Way?* explains how deeply ingrained moral systems have estranged conservatives and liberals from one another while crossing the political divide in a search for understanding the miracle of human cooperation.
