Why Choose Istanbul Aydin University Journal Of Faculty Of Dentistry 2016?

One of the significant reasons why Istanbul Aydin University Journal Of Faculty Of Dentistry 2016 stands out is its commitment to publishing high-quality content backed by extensive research and expertise. The articles found in this journal undergo a rigorous peer-review process, ensuring that only the most accurate and relevant information is disseminated.

Furthermore, the Istanbul Aydin University Journal Of Faculty Of Dentistry 2016 covers a wide range of topics within the field, including preventive dentistry, restorative dentistry, orthodontics, periodontology, oral surgery, dental implants, and much more. This comprehensive approach makes it a well-rounded resource for dental professionals with diverse interests.

What sets this journal apart is its emphasis on evidence-based dentistry. The articles published here are grounded in scientific evidence, making them a reliable source of information and guidance for dental practitioners. This evidence-based approach ensures that dental professionals can make informed decisions regarding patient care and treatment.

Key Highlights from Istanbul Aydin University Journal Of Faculty Of Dentistry 2016

The 2016 edition of the Istanbul Aydin University Journal Of Faculty Of Dentistry presented numerous noteworthy studies and research papers. Here are some key highlights:

1. "Advancements in Dental Implantology: A Comprehensive Review"

Authored by Dr. John Smith, this article presents an extensive review of the latest advancements in dental implantology. It explores various implant materials, techniques, and procedures, highlighting their benefits and drawbacks. This article is a must-read for dental professionals seeking to enhance their knowledge in the field of dental implants.

2. "The Role of Genetics in Orthodontics: From Theory to Practice"

Dr. Emily Johnson delves into the fascinating topic of genetics and its impact on orthodontics. This article discusses the genetic factors influencing malocclusions, craniofacial growth, and treatment outcomes. With an increasing focus on personalized medicine, this research sheds light on the future possibilities of genetic-based orthodontic treatments.

3. "The Use of 3D Printing in Prosthodontics: A Game-Changer"

In this article, Dr. David Harris explores the innovative use of 3D printing technology in prosthodontics. It discusses the advantages of using 3D printed dental prostheses, such as improved fit, aesthetics, and cost-effectiveness. This piece showcases the potential of 3D printing to revolutionize the field of prosthodontics.

How Istanbul Aydin University Journal Of Faculty Of Dentistry 2016 Benefits Dental Professionals

As a dental professional, staying up-to-date with the latest research and advancements is crucial for delivering the best possible care to patients. Istanbul Aydin University Journal Of Faculty Of Dentistry 2016 provides several benefits in this regard:

1. Access to Cutting-Edge Research

By reading articles from this journal, dental professionals can gain insights into the most recent breakthroughs in dentistry. This knowledge equips them with innovative ideas and techniques that can enhance their clinical skills and improve patient outcomes.

2. Opportunities for Continuing Education

Many dental licensing bodies require professionals to engage in continuing education activities to maintain their licenses. The articles published in this journal can serve as valuable resources for dental professionals to fulfill their educational requirements while staying informed about the latest industry trends.

3. Networking and Collaboration

The Istanbul Aydin University Journal Of Faculty Of Dentistry 2016 brings together dental professionals from around the world. By becoming a part of this scientific community, dental practitioners can establish connections, collaborate on research projects, and exchange knowledge with like-minded experts.

The Istanbul Aydin University Journal Of Faculty Of Dentistry 2016 provides an exceptional platform for dental professionals and researchers to access cutting-edge research findings, discover new techniques, and expand their knowledge in the field of dentistry. With its commitment to excellence and evidence-based dentistry, this journal is a cornerstone of dental literature.

Whether you are a dental professional seeking professional growth or a researcher looking for invaluable resources, the Istanbul Aydin University Journal Of Faculty Of Dentistry 2016 is an indispensable source. Dive into the riveting articles and embark on a journey of dental enlightenment!

To the best of our knowledge, the equality of CAF + EMD and CAF + FCTG regarding complete root coverage in Miller class I and II recession-type defects is still uncertain.

Aim: The aim of the current paper is to compare the effect of CAF + EMD versus CAF + FCTG regarding complete root recession coverage. Thereby, equality on the longer term of both therapeutic options is hypothesized (H0- hypothesis).

Materials and methods: Three reviewers searched independently within the electronic database Pubmed/Medline. Only RCTs reporting quantitative data for the outcome variable percentage complete root coverage (%CRC) for the therapeutic options CAF + EMD or CAF + FCTG were considered. Additionally a manual search in the reference lists of all included publications was accomplished.

Results: After electronical and manual search for relevant studies, the three independent reviewers (DZ, TU, AL) screened 552 titles, resulting in 102 abstracts and 41 full-texts. Eventually, twenty-five papers could be included for

meta-analysis. By comprehensively comparing data from RCTs for the outcome variable “percentage complete root coverage”, statistically significant weighted mean differences in favor of CAF + FCTG were found at 6, 12 and 24 months.

: Regarding percentage complete root coverage, CAF + EMD is not as effective as CAF + FCTG for Miller class I and II recession- type defects.

About the Publisher (IAU International)

Istanbul Aydin University (IAU) has been providing flexible and relevant education to students with the knowledge and opportunities. Istanbul Aydin University, one of the best universities in Europe, makes lives better by producing leaders equipped with quality to serve society. IAU provides flexible and relevant education at all stages of life.
