Procedures to Play Rummy on Video Call

Here are the step-by-step procedures to play Rummy on a video call with your friends:

1. **Choose a Video Call Platform:** Decide on a video call platform that all players can access. Popular options include Zoom, Skype, Google Meet, and WhatsApp video call.
2. **Set Up a Video Call:** Create a group video call, invite all the players, and make sure everyone is connected.
3. **Arrange Your Cards:** After the video call is set up, each player should arrange their cards in their hand.
4. **Decide the Dealer:** Randomly choose a dealer for the first game. The dealer is responsible for shuffling the deck and distributing the cards to each player.
5. **Start the Game:** The dealer starts the game by drawing a card from the deck and discarding a card from their hand. The game then proceeds clockwise, with each player taking their turn.
6. **Take Turns:** Each player takes turns drawing a card from the deck or picking up the top card from the discard pile. They must then discard a card from their hand to maintain the number of cards in their hand.
7. **Form Sets and Runs:** The objective of Rummy is to form sets and runs with the cards in your hand. A set is formed by grouping together cards of the

same rank but different suits. A run is formed by placing consecutive cards of the same suit.

8. **Declare a Valid Hand:** When a player has formed sets and runs with all their cards, they can declare a valid hand. The remaining players must then calculate their points based on the cards left in their hand.
9. **Keep Track of Score:** Keep a scorecard to record the points earned by each player after each round. The player who reaches the predetermined score limit first is declared the winner.
10. **Continue Playing:** Play multiple rounds of Rummy and enjoy the game with your friends on the video call.
