Challenging multiple choice questions:

We have seen several quiz books that have a poor selection of multiple choice questions, such as example below...

What is the highest mountain in Turkey?

A Mt. Whitney B Mt. Everest C Mt. Ararat D Mt. Cook

Whilst this question is somewhat tricky in itself, the answers given allow most geographers to eliminate the 3 wrong answers quickly to come up with answer C.

Instead of this approach, we have kept the quiz more like shown below to make this strategy of quizzing harder for the challenger...

What is the highest mountain in Turkey?

A Mt. Elbrus B Mt. Davamond C Mt. Ararat D Mt. Bazarduzu

Although it may be easy for some seasoned geographers, this question, by the choices given is harder for the most part, and will hopefully trigger more conversation/thought before answering.
