The Meta-Coaching Process

The Unleashing Leadership Meta Coaching process consists of several stages:

1. **Map the Territory:** In this stage, the coach and the client explore the client's current leadership abilities, strengths, and limitations. By understanding the current state, the coach can identify the areas that require improvement.
2. **Create the Vision:** Once the current state is analyzed, the coach helps the client define a compelling vision for their leadership future. This vision serves as a guide and motivator throughout the coaching process.
3. **Develop New Competencies:** In this stage, the coach assists the client in developing new competencies and skills necessary for effective leadership.

This may involve enhancing communication abilities, emotional intelligence, strategic thinking, and decision-making skills.

4. **Elicit and Transform Limitations:** Unleashing Leadership Meta Coaching goes beyond skill development. It addresses the underlying patterns and beliefs that limit leadership potential. By eliciting and transforming these limitations, the client can experience true breakthroughs and unleash their full leadership abilities.
5. **Launch into Leadership Excellence:** The final stage focuses on integrating the newly acquired skills and capabilities into the client's daily leadership practice. The coach provides ongoing support and guidance to ensure a smooth transition into exceptional leadership.

Why another book on Leadership? Because even though we have most or all of the pieces of the puzzle for creating great visionary companies, we don't have the framework. *Unleashing Leadership* offers that framework.

Based on the pioneering work of Abraham Maslow, Dr. Hall has identified the missing frame for unleashing the leadership and creativity for a great company—a company where people are at their best, their potentials are being unleashed, and where people experience work as a passion. The new framework makes explicit the premises about human nature—the self-actualizing drive that enables people to rise to their best. Leaders and managers now have all they need to create Self-Actualizing Companies— companies fully able to tap into and unleash the human capital of productivity, creativity, innovation, passion, and engagement. Companies where customers become loyal fans because of the way employees treat people and employees become loyal participants because of how they are treated by management.

Unleashing Leadership is cutting-edge psychology for organizations who want to become effective, productive, and humane. Everybody connected with business (leaders, managers, employees, customers, investors) needs meaning in work, products and services—meaning that enables them to actualize their highest and best.

The jury is no longer out on what makes great companies— it is passionate people who are completely engaged using their creative and intellectual assets—and this book gives leaders the how for using this missing frame of the puzzle to lead a self-actualizing company.
