Before the United Kingdom's Dangerous Drugs Act of 1920, many of today's illicit substances, including cocaine, were readily available in British pharmacies as over-the-counter remedies, either in pure form or as an active ingredient in any number of cure-alls. During this time, Aleister Crowley ingested a variety of mind-altering substances and wrote about his experiences in essay form, published in the magazine *The International*, where he argued for "constructive morality" in place of the new anti-drug legislation which he deemed repressive.

Essays on Intoxication presents the best of these writings together for the first time in one volume: *The Psychology of Hashish*, *Cocaine*, *Absinthe the Green Goddess*, *The Drug Panic*, *The Great Drug Delusion* and *Ethyl Oxide*.
