Print length : 240 pages

MANUAL FOR PHYSICAL AGENTS, 6/e is a core education resource for modern physical therapists, therapist assistants, and athletic trainers. It integrates concise summaries of the theoretical background and available evidence for each technique; step-by-step instructions presented generically, without brand names; and broad coverage of most current techniques. Concise tables provide fast access to essential information. This edition offers stronger focus on evidence-based practice; a new chapter on evaluating new interventions; new study and discussion questions; and extensive new topic coverage: from controlled cold compression to electrical stimulation for tissue repair.
