Bass firmly believes that a well-prepared individual is the strongest defense against the undead hordes. In her *Zombie Survival Kit*, she has meticulously curated a collection of tools, weapons, and knowledge that will equip you to survive in the post-apocalyptic world.

The Essentials: Must-Have Items in Your Zombie Survival Kit

1. **Zombie Defense Weapons:** A good survival kit is incomplete without an arsenal of weapons to fend off zombies. Bass recommends a combination of close-quarters weapons (such as machetes and crowbars) and long-range options (like crossbows and firearms) to efficiently neutralize threats.

2. **Food and Water:** In a world devoid of grocery stores and clean water sources, it is crucial to have a stockpile of non-perishable food items and purified water. Bass suggests including enough supplies to sustain you for at least three months.

3. **First Aid Kit:** With medical facilities likely non-existent during a zombie apocalypse, a well-equipped first aid kit can be a lifesaver. Bass advises including essential supplies such as bandages, antiseptics, painkillers, and any prescription medications.

4. **Communication and Navigation:** It's vital to stay connected and informed in a post-apocalyptic world. Bass recommends including a solar-powered radio and a reliable compass in your kit to receive emergency broadcasts and navigate unfamiliar territories.

5. **Shelter and Clothing:** With urban infrastructure destroyed, finding shelter and staying warm becomes increasingly challenging. Bass advises packing a waterproof tent, a sleeping bag, and extra layers of clothing suited for different climates.

Training and Knowledge: Your Path to Survival

Owning the right tools is just the first step towards surviving a zombie outbreak. According to Bass, knowledge is equally crucial. Her Zombie Survival Kit includes an extensive guidebook covering topics such as:

- Identifying different types of zombies and their weaknesses

- Effective zombie defense strategies
- Basic medical procedures for treating zombie bites and injuries
- Building fortifications and setting up defenses
- Scavenging for resources in a zombie-infested world

Additionally, Bass offers online video tutorials to guide survivalists in honing their skills. From learning how to wield a weapon effectively to mastering stealth movements and camouflage, every aspect of surviving in a zombie-infested world receives comprehensive attention.

Your Survival Begins Now

The threat of a zombie apocalypse may seem far-fetched, but no one can predict the future. Being prepared for any catastrophe, including a zombie outbreak, is never a bad idea. Ellen Bass's *Zombie Survival Kit* equips you with the necessary tools, weapons, and knowledge to increase your chances of survival when the undead rise.

So, are you ready to face the walking dead? Invest in your own *Zombie Survival Kit*, join the ranks of those prepared for the unexpected, and ensure your survival in a world overrun by zombies.

Would you know what to do if the Zombies attacked?

If you are one of the few who are not converted.....

1. How would you survive?
2. How much water would you need?
3. How to get information when the electricity is cut and TV, internet and your mobile are no use.

Take a few steps and you could be one of the lucky ones.

This book illustrated in the comic book style will give you all the information you need on what you need to survive for 72 hours. Follow Max and his owners as the battle Zombies like old Mrs. Clements. See if the CDC can find a cure for the disease.

Whilst a Zombie attack may not happen in the near future, the information in this book will also help you survive the effects of power outages, hurricanes, snow storms and other severe weather conditions.

I have also included a special bonus at the back to help you work out what you need in your 72 hour kit to survive. This will help you work out how much water you need to survive 3 days, as well as food and general items. The document list

will help so you can prove who you are and claim on your insurance as necessary.

Don't be one of those people you see in an emergency, trying to buy water and food. Sort it out now and if an emergency happens you know you can survive for at least 72 hours.

This book is based on the website of the CDC. The comic story is good for teenagers to read and will give them the information they need without boring them. Suitable for children 11 and over.
